

I am Puneet Jawali. My experience with the M.Sc. Zoology dept has been truly enriching and memorable as well. The department offers a well-sounded academic environment that not only focuses on theoretical knowledge but also emphasizes practical learning and overall development. One of the highlights was the field trip and educational tour organized as part of the curriculum. These hands on experiences allowed us to connect with nature and apply our class-room knowledge in real-life settings, which greatly enhanced our understanding of zoology concepts. The professors were approachable and supportive. They always created a friendly and motivating learning atmosphere. The campus itself is beautiful and conducive to learning, providing a peaceful and engaging environment.

Overall, the M.Sc. Zoology department offers an excellent blend of academics, field experience and personal growth opportunities. I am truly grateful to have been a part of this journey.
