STUDENT TESTIMONY

My journey at Sharnbasava University, Kalaburagi has been full of excitement, challenges and learning it has completely transformed me both professionally and personally. It went through various seminars, workshops and trainings including competency building program, that helped me shape my career and secure placement in education field in both government and private sector. I had received two promotions after completing my Masters in Zoology (M.Sc) present I am working as Principal of CBSE Affiliated School. The unique approach of learning via experiments at laboratory, field visits, educational tour and projects etc. has led to immense value addition in life.

I am grateful for the University and the respective faculties support

I thank for all the opportunities and mentoring that are a treasure for my life.
