

I would like to express my appreciation for the quality of education provided at Shriharasana University, particularly in Dept' of Zoology. The faculty members are knowledgeable, approachable and always willing to support students both academically and personally. The curriculum is well structured and aligns with the current scientific trends. The practicals session are conducted efficiently and the laboratory facilities are well equipped to provide hands-on experience. I appreciate the encouragement given to students here for the research & Extracurricular activities. The Overall campus environment is clean, safe. I am grateful for the opportunities and guidance the university provides, which played a key role in my academic and personal growth.
