A Report On

Industrial Visit to Thermal Power Plant KPCL Raichur on 7th July 2023

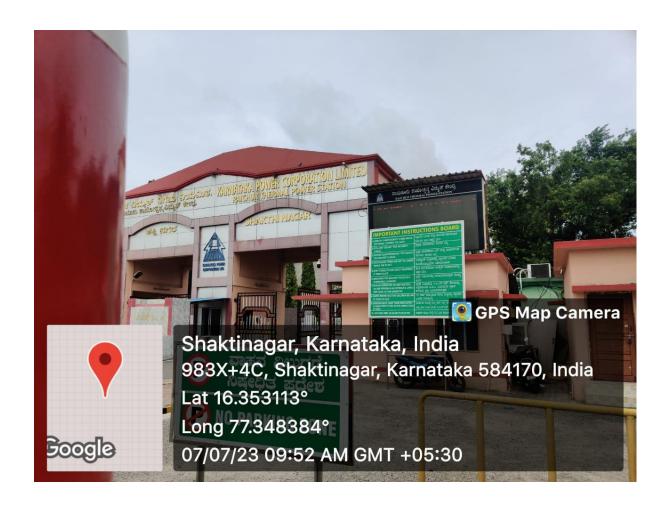

Faculty of Engineering & Technology (Co-Ed) Department of Electronics & Communication Engineering

ON 07 JULY 2023

INDUSTRIAL VISIT TO KPCL, THERMAL POWER PROJECT SHAKTHI NAGAR, RAICHUR

A detailed report on the industrial visit to the Thermal Power Plant KPCL Raichur that took place on the 7th of July 2023. The visit was organized by Department of Electronics & Communication Engineering FOET(Co-Ed), Sharnbasva University Kalaburagi 585 103 for the students of B Tech 6th Semester, and it proved to be an immensely educational and insightful experience.

Introduction:

The Thermal Power Plant KPCL Raichur is a significant power generation facility located in Raichur, Karnataka. It plays a pivotal role in the power supply to the region, contributing significantly to the state's energy requirements. The plant primarily employs a thermal power generation process, which involves the combustion of coal to produce electricity.

Visit Schedule:

The industrial visit was scheduled as follows:

- Date: 7th July 2023

- Departure from University Campus Kalaburagi: 6.30AM

- Arrival at KPCL Raichur: 9:40 AM

- Duration of Visit: 8 hours

- Departure from KPCL Raichur: 5:30 PM

- Arrival at University Campus Kalaburagi: 9:00 PM

Key Highlights of the Visit:

• Welcome and Orientation:

The visit commenced with a warm welcome by the plant's staff. They provided an informative orientation, giving us an overview of the plant's history, capacity, and its contribution to the region's power needs.

Students were guided through various sections of the power plant, including the boiler, turbine, generator, control room, and cooling systems. They were able to observe the entire power generation process.

Our students had the opportunity to interact with the plant's engineers and staff, who provided insights into their roles, challenges, and the technical aspects of power generation.

• Plant Overview:

The visit included a tour of the plant, allowing us to witness various components of the power generation process. We had the opportunity to see the coal handling, boiler, turbine, and generator sections. The plant's layout was impressive and well-organized.

Coal Handling and Combustion:

We observed the process of coal handling, storage, and combustion, which is a crucial aspect of power generation. The guide explained the intricacies of coal transportation and the technology used for efficient combustion.

• Boiler and Steam Generation:

The students were given a detailed insight into the functioning of the boilers, steam generation, and the high-pressure steam's critical role in the power production process.

• Turbine, Generator and Control Panel:

The turbine and generator sections were fascinating. We learned about the conversion of thermal energy into mechanical energy and then into electrical energy. The guide explained the control systems that regulate power output.

• Environmental Measures:

The plant's commitment to environmental conservation was evident. We were briefed on the measures taken to minimize pollution, including the treatment of effluents and the use of emission control technologies.

• Safety Protocols:

The importance of safety in an industrial setting was emphasized. We were briefed on safety protocols, emergency procedures, and the protective equipment used by the plant's workforce.

• Q&A Session:

After the tour, a question-and-answer session was held, providing an opportunity for students to clarify doubts and gain a deeper understanding of power generation processes.

• Educational Benefits:

The visit provided several educational benefits to our students, including:

- A practical understanding of thermal power generation.
- Exposure to real-world applications of electronics and communication engineering within the power generation sector.

- Insight into the importance of safety measures and environmental compliance in industrial settings.
- Interaction with industry professionals, providing valuable career insights.

Conclusion:

The visit to the Thermal Power Plant KPCL Raichur was an invaluable educational experience. It provided students with real-world insights into the functioning of a thermal power plant, its environmental responsibilities, and the significance of safety in an industrial setting. This visit was a great opportunity for the students to bridge the gap between theoretical knowledge and practical applications.

We would like to extend our sincere gratitude to the management and staff of the Thermal Power Plant KPCL Raichur for their hospitality and for organizing this informative visit. It has contributed significantly to our academic growth.

We believe that such industrial visits play a vital role in the holistic development of our students and look forward to organizing more such educational outings in the future.

The following are the official documents processed for the industrial visit:

- 1. Request letter to KPCL
- 2. Student List
- 3. Staff List
- 4. Permission grant letter from KPCL
- 5. Acceptance letter
- 6. Bus facility request letter
- 7. KKSRTC receipt

Permission to Visit to Raichur Thermal Power Project on Sub:

27-06-2023 -Reg

Dear Sir.

I am writing to you on behalf of Department of Electronics and communication (Co-Ed), Sharnbasva University located in Kalaburagi. Our university aims to provide our students with practical exposure to real-world industries, which is an essential part of their educational development.

We believe that a visit to an operational thermal power plant would greatly enhance our students' understanding of the subject. After extensive research and evaluation, we have selected the renowned Thermal Power Plant in Shakti Nagar, Raichur, as an ideal location for our industrial visit. Therefore, we kindly request your permission to arrange an industrial visit for a group of approximately 80 students and 5 staff members from our department.

During the visit, we hope that our students will have the opportunity to:

- 1. Observe the various components and processes involved in thermal power generation.
- Gain insights into the functioning of different departments and their roles in power plant operations.

- 4. Interact with industry professionals and learn about potential career opportunities in the power sector.

We genuinely believe that this visit will significantly contribute to our students' education and provide them with practical insights into the power generation industry. We sincerely hope that you will grant us the permission to visit the Thermal Power Project, Raichur.

We assure you that all necessary precautions and safety measures will be taken during the visit to ensure the well-being of our students. The visit is tentatively scheduled for 27.06.2023 and the group will be led by our faculty members Prof. Rekha S (Cell No: 9739713888) and Prof. Jagadeesh Patil (Cell No: 9036511203)

We seek the permission to visit on 27.06.2023

Thank you for considering our request. We eagerly look forward to your kind co-operation.

Yours sincerely,

Dr. Shashidar Sonnad

Subject: Acceptance and Request to Allow Industrial Visit

Dear Sir/Madam,

We are writing to express our sincere gratitude for granting permission to our institution, Sharnbasva University Kalaburagi., for an industrial visit to Raichur Thermal Power Project. We are thrilled and grateful for the opportunity to visit your esteemed facility.

We acknowledge and appreciate the effort put forth by your team in considering our request. We understand the importance of industrial visits in providing practical exposure to students and helping them gain firsthand knowledge about the functioning of thermal power plants. It is an invaluable experience that bridges the gap between theoretical learning and practical implementation.

We understand that you have a busy schedule and numerous responsibilities, and we genuinely appreciate your consideration and assistance in facilitating this visit. We believe that this opportunity will significantly contribute to the overall development and learning experience of our students.

Thank you once again for granting us permission to visit Raichur Thermal Power Project on 07.07.2023.

Thank you for your time and cooperation.

Subject: Request for Bus Service for Industrial Visit to Raichur Thermal Project

Dear Sir/Madam.

I am writing to you on behalf of Department of Electronics and communication (Co-Ed), Shambasva University located in Kalaburagi to request the provision of a bus service for an industrial visit to the Raichur Thermal Project.

We kindly request the following arrangements to ensure a successful and fruitful industrial visit:

- Bus Service: We request the provision of a dedicated bus service to transport our students to the Raichur Thermal Project. The bus should be spacious enough to comfortably accommodate approximately 80 students and 05 accompanying staff members.
- Date and Time: We propose 07.07.2023 as the date for the industrial visit. The departure time should be early in the morning to allow us ample time to explore the Raichur Thermal Project and engage in educational activities.
- 3. Return Journey: Following the visit, we kindly request the bus service to transport our students and staff members safely back to our university. The return journey should be scheduled in the late evening, allowing sufficient time to complete the tour and any related activities.

As the safety and well-being of our students are of paramount importance, we kindly request that the bus provided adheres to all necessary safety standards. This includes, a trained and responsible driver, and compliance with traffic rules and regulations throughout the journey.

We are willing to contribute towards the expenses associated with the bus service, fuel, and any other necessary arrangements. Please provide us with the estimated cost and any further details we need to consider.

We are sincerely grateful for your consideration and support in making this visit possible.

Thank you for your attention to this matter, and we eagerly await a positive response.

Yours sincerely,

Dr. Shashidar Sonnad

Chairman, Dept. of E&CE(Co-Ed),

Shambasva University Kalaburagi 585 102
