

Report on Workshop: “Data Analysis using R Programming”

A workshop on “Data Analysis using R Programming” was organized from 30th January 2024 to 2nd February 2024 by the Department of MCA and Department of Master of Science in Data Science, Faculty of Computer Applications, Sharnbasva University, Kalaburagi.

The resource person for the workshop was Dr. Madhusudhan Zalki, faculty member of REVA University, Bengaluru.

During the four-day workshop, various statistical tools and techniques such as Probabilistic Models, Correlation and Regression Analysis, and several other essential tools in data analysis were taught. The sessions emphasized the significance of these tools in data-driven decision-making and research applications.

The workshop witnessed active participation from staff and students of MCA, M.Sc. in Data Science, B.Sc. Computer Science, and BCA programs, contributing to a collaborative and insightful learning environment.
