Title of the Event	Social Awareness Program on "Road Safety"
Date of Activity held	19th June, 2024
Time of Activity	One day program
Type of Activity (Cultural/ Co-curricular/Curricular)	Co-Curricular
Program/Course/ Class	B.Tech/CSE/4 th sem
Number of Students attended	30
Number of Staff attended	02
Activity Incharge	Dr.Syada Asra, Dr.Sumangala Patil,,Prof.Sudha
Description of Activity	An awareness programme on road safety was conducted on 19/06/2024 by 4th sem students. The event took place in the Karnataka public Govt. Primary and high School Aurad(B), Kalaburagi Dist. Road safety is a most common and important topic and has been added to various fields like education, social awareness etc, in to order to bring more awareness in the public especially among school and college students. Road safety is an issue that affects everyone in India. We all need to use the roads to get around- to school, to work, to the hospitals, to the shops, to the cinema. Most of us use the roads every day, as drivers, passengers, cyclists and pedestrians, and for many people driving is the main part of their job. It is essential therefore, to ensure that, as far as possible, we can all use the roads safely. The human and economic damage caused by road crashes is largely preventable. Road safety is a safety measure to reduce the risk of road accidents and road side injury because of the mistakes of people while driving on the road. We cannot count the daily road side accidents and death of people because of the driving mistakes and lack of road traffic rules followers. Every person going on the road has risk of injury or death. Everyone needs to be well aware of the road traffic rules especially children and young people who are at significant road accident risks. It is found that most of the hospitalization cases and leading cause of death are because of the road trauma. Road safety is very necessary while being on the road and must know by all because road accidents are the leading cause of death. Everyone should learn the road traffic and safety rules at a very early age to perform safer behaviors in the later life. Road safety risks have been increased because of the driver distraction due to the use of cell-phone or other electronic devices while driving. Lack of knowledge and awareness regarding road traffic rules and regulations, violation of traffic rules, flaws in road design and engineering, along with driver behavior, can be overcome with concerted effort. Road safety measures are the tools can save from the expensive traffic fines, serious offences, removal of driving licenses, etc. Pedestrians also know the rules of walking on the road like proper use of crosswalks, use of zebra crossing, etc.
