

“Infosys Company Specific Training”

Date: Dec 2024 to Jan 2025

Coordinator(s) Name: Prof. Rashmi Bangar

Total Number of Participants: 43

Targeted Audience: UG students of the University

About the Event:

The Infosys-specific training program at Computer science department is a transformative initiative aimed at preparing students for success in Infosys placements. By focusing on key modules such as reasoning ability, technical skills, pseudo codes, numerical puzzles, verbal aptitude, and English proficiency, the program equips students with essential competencies demanded by the corporate world. Real-world simulations, mock tests, and personalized feedback ensure students are confident and well-prepared for challenging recruitment processes. This program reflects the university's commitment to bridging the gap between academic learning and industry requirements. It nurtures critical thinking, adaptability, and professional communication skills, fostering holistic development.

Training Scope and Duration

- **Total Duration:** 130 hours
- **Mode:** Offline
- **Training Partner:** ATOM.
- **Trainers:** Subject-matter experts in Aptitude, Reasoning, Communication, and Technical Skills
