| <b>Description of Activity</b>                              | <p>To provide awareness to engineering third year students about Career Planning. The talk begins with a discussion on what are benefits of career planning while in college and after graduation. This is followed by what employers want in an employee. And how to prepare for higher studies also added in the presentation. More than 80 students are benefited by this technical talk.</p> <p>Points covers</p> <ul style="list-style-type: none"> <li>➤ Importance of Early Planning</li> <li>➤ Setting Clear Goals:</li> <li>➤ Skills Development</li> <li>➤ Networking</li> <li>➤ Exploring Opportunities</li> <li>➤ Adaptability</li> </ul> |
| <b>Outcome of the Activity</b>                              | <p>The talk on "Career Guidance on Benefits of Early Career Planning" likely emphasized the importance of setting career goals early, identifying key skills, and exploring different career paths. It would have highlighted how early planning can lead to better job opportunities, personal growth, and financial stability. Additionally, the talk might have offered advice on networking, internships, and educational choices to align with long-term career success.</p>                                                                                                                                                                     |
