Activity Report

Title of the Event	From Lab to Market: Navigating the TRL Journey
Date of Activity held	18/06/2025
Time of Activity	02:00 PM
Type of Activity (Cultural/ Co curricular/Curricular)	Co curricular Activity
Resource Person	Dr. Basanti Ghanti
Professional details of Resource Person	Professor Dept. of E&CE, FETW, Sharnbasva University, Kalaburagi,
Program/Course/ Class	B.Tech./ECE/4 th Semester
Number of Students attended	80
Activity Incharge	Prof. Laxmi Patil Prof. Shobhana
Description of Activity	The expert session titled “<i>From Lab to Market: Navigating the TRL Journey</i>”, delivered by Dr. Basanti Ghanti, was a highly informative and thought-provoking engagement focused on the transition of technological innovations from research labs to commercial markets through the framework of Technology Readiness Levels (TRLs). Dr. Ghanti also shared practical case studies and examples of technologies that successfully transitioned from academic research to viable products and services. She highlighted the challenges researchers often face, including limited funding, scalability issues, and regulatory hurdles, and offered actionable insights on overcoming these obstacles. The session strongly encouraged participants to think beyond academic outcomes and align their innovations with societal needs and market demands. She also emphasized the critical role of mentorship, prototyping, pilot testing, and feedback loops in reducing the gap between innovation and implementation. Overall, the session served as a guiding light for aspiring innovators aiming to translate their research work into real-world applications, in alignment with the objectives of the Institution’s Innovation Council (IIC).

Outcome of The Activity	The session inspired students to explore innovation and technology development as a viable and impactful career path. Many students expressed a newfound interest in taking their academic projects beyond the lab and into the real world through structured innovation frameworks. Dr. Basanti Ghanti’s practical insights into the Technology Readiness Levels (TRLs), along with real-life examples of successful research-to-market journeys, motivated students to think more entrepreneurially.
