Description of Activity	Water conservation means the practice of using water efficiently wherever possible, thereby minimizing its wastage. It includes all steps taken to preserve water bodies, freshwater sources, and our daily requirements without polluting or wasting them. Water is vital for all living being to maintain life on earth. It is used for cooking, washing, cleaning, bathing, and irrigation, etc. Rainwater harvesting is one of the best method used for conserving water. Faculties of ECE department, Faculty of Engineering and Technology(Exclusively for Women), Sharnbasva University, Kalaburagi visited Chanakya govt. school Kalabaragi, headed by Mr. to create an awareness program on “Water Conservation”
