Objectives of the Event	: a. Professional Development & Leadership. b. Networking and Mentorship. c. Innovation and Visibility. d. Promoting STEM for Women. e. Global Networking
Titles of Topics Covered of Event	: Titles of Topics Covered of Event during the two days congress are I. Satellite Technology and its Application II. The Hybrid Engineer: Where Code Meets the Silicon III. Beyond the Prompt: Engineering Careers in the Age of Autonomous AI
Scheduled of the Event - Day wise	: - Day 1 – Offline Session - Day 2 – Online Session
Outcomes of the Event	: I. Satellite Technology and its Application The session on Satellite Technology and its Applications highlighted the transformative impact of space-based assets on global communications, Earth observation, and socioeconomic development, emphasizing a shift toward digital satellite technology, miniaturization, and space-ground integrated networks. II. The Hybrid Engineer: Where Code Meets the Silicon The outcome of sessions focused on "The Hybrid Engineer: Where Code Meets the Silicon" highlights a major shift in the semiconductor and tech industry where engineers must merge software expertise with hardware design to handle increasing complexity, AI integration, and design efficiency. III. Beyond the Prompt: Engineering Careers in the Age of Autonomous AI

IEEE WIE, IEEE Bangalore Section and IEEE North Karnataka Subsection

The outcome of "Beyond the Prompt: Engineering Careers in the Age of Autonomous AI" signifies a fundamental shift in the technology landscape, moving away from manual prompt engineering towards the era of Agentic AI and Context Engineering.
